ABOUT ME

With a background in **analytics** and professional experience in **customer service**, I bring a **rich cultural perspective** and adaptability from my **bilingual upbringing**. Recently graduating from **Le Wagon**'s web development boot camp, I'm proficient in **Ruby on Rails**, **React**, and familiar with **modern workflows** of the tech industry. Now I'm **highly motivated** to apply my skills in Tokyo's IT industry.

PROJECTS

CIET - Can I Eat This? ⊞
Lead Developer
An application for foreign vegans/vegetarians in Japan to scan food products and check if it meets their dietary restrictions.
//Ruby on Rails, Google API's, DeepL API, Stimulus JS, HTML, CSS, Stimulus JS, Heroku

Quanki ⊞
With Quanki you can easily create a quiz from a pdf file of your notes, lecture slides, academic texts etc..
//React, Ruby on Rails, OpenAI API, Postgresql
